#### WASHINGTON.

WASHINGTON, June 28 .- The comments of the New York Tribune and other Republican papers upon the alleged action of Major Adams, the Clerk of the House, in mak. g up the roll; are premature. There is authority for stating that Major Adams has not made public his action in the premises, and no one has any right to represent him as making up a roll with eight Democratic majority, or any other majority. The Clerk of the House is keeping his own counsel, as he should do. It is probable that the Democratic majority on the first roll-call will be about ten or twelve. but this is only an estimate.

OFFICE-HOLDERS AND POLITICS. The recent order of President Hayes, interdicting public officers from acting as chairmen or members of political committees and conventions, has produced a good deal of trouble among the Republican politicians. They say it will break up the discipline and organization of the Republican party if it is carried out. Many machine politicians have become imbued with the idea that the principal business of the office-holder is to look after party interests and run the party machinery.

THE BLOW 'TWIXT THE EYES. Politicians have got it at last, and they are mad about it, too. The President has issued his order informing all Federal office-holders to quit dabbling Federal office-holders to quit dabbling in politics or they will get their heads knocked off. Postmasters, Collectors, Sub-treasurers, and "lich," mustn't go to fooling round caucuses, conventions, etc.; no more wire-pulling, log-rolling or pipe-laying; but they must attend strictly to the duties of their several offices, and let toe ward politicians and outsiders who want office run the machine. Now there will be a demand

State Committee for years, will now have to give up his pension agency or resign his chairmanship. Who will take his piace? Whom will the Republicans put against John G. Thompson, the willy Democratic manager of Ohio politics? John G. is up to snuff, and the Republicans will have to get a lively man to beat him. And the fifteen hundred postmasters in the Buckeye State will not take off their coats and go to work, nor furnish money to pay for banners, music and beer. The party in power will not have any advantage in these respects over their Democratic brethren, and so we want the Democracy to be fair and not go to twisting the Republicans about having all the office holders on their side. The Democrats ought to thank Mr. Hayes for withdrawing all Administration support from their enemies and when they can into mover were the program of the second of the seco State Committee for years, will now Administration support from their enemies; and when they get into power we shall expect them to carry on the reform now inaugurated.
